POND'S EXTRACT

The Genuine never fails.
It can always be relied on.
Used internally and externally.

Far superior to any imitation or substitute. It costs more to make, it costs more to buy—but it is cheaper because it is stronger, better, purer than anything else.

THE UNIVERSITY OF CHICAGO

THE SUMMER QUARTER

The University of Chicago will announce the courses of study offered for the Fourth Summer Quarter early in March. By the constitution of The University the Summer Quarter is an integral part of the college year, and work done in the months of July, August, and September may be counted towards a degree by any candidate. Accordingly there will be no diminution in the opportunities offered for study and investigation. Every department will be in operation with a full corps of instructors; all libraries and laboratories will be open for the use of students.

While regular students are encouraged to make the Summer Quarter a part of their college course it is hoped and expected that many persons will enter The University for the Summer Quarter only, or for a single term of it. The programme of courses is therefore especially adapted to meet the needs of such persons. Many beginning courses are offered, and courses of study are so arranged that a student may devote his entire time for six weeks or three months to the mastery of a single subject under the direction of several instructors. In this way a student who desires to advance in any subject beyond the limits fixed by the resources of the preparatory school, either for the purpose of anticipating some portion of his college course or to fit himself for independent work in his chosen field of study or profession, can pursue his plan most profitably.

For divinity and graduate students The University offers substantially the same opportunities for advanced work in the Summer as during any other quarter of the year. In the last Summer Quarter four hundred fifty-nine graduate students and one hundred fifty-six divinity students were registered, the total number of students in attendance being one thousand fifty-eight.

For undergraduates and teachers desirous of pursuing studies for the bachelor degree the prescribed courses will be repeated as well as the elective work offered in the Junior and Senior Colleges. Many of the courses will be arranged as "double minors" (courses requiring two hours of class room work per day for six weeks), thus enabling students who can spend but one term at The University to get complete credit for the work which they perform.

Admission to The University for the Summer Quarter is gained by examination. A detailed list of requirements is given in the *Circular of Information*. Teachers may be admitted to courses in departments in which they have given instruction *without examination*, in accordance with a special regulation of The University.

The tuition fee for the quarter is forty dollars; for either term twenty dollars. Divinity students are exempt from tuition fees during this quarter as during other quarters of the year. Rooms in the college dormitories may be rented at prices varying from twenty-five to fifty dollars per quarter.

A Special *Circular of Information* for the Summer Quarter will be sent after March 1st, on application to

THE EXAMINER: THE UNIVERSITY OF CHICAGO.
